

Established in 1979, Plexus is a leader in providing electronics design, manufacturing and aftermarket services to companies with mid-to-low volume, higher complexity products. We have been delivering comprehensive Product Realization solutions to our customers for more than 35 years.

Our seamless value stream services model offers the flexibility your products require, while meeting or exceeding all technological, quality and regulatory requirements demanded by the healthcare and life sciences industries. When you partner with Plexus, you gain an accountable, single-source partner across the entire Product Realization Value Stream with a commitment to Customer Service Excellence and Operational Excellence.

Bringing innovative products to life.

In today's constantly evolving world of medical devices and life science technologies, Plexus is the trusted source to collaborate with while taking your ideas from concept to market. Working with Plexus gives you a single source and collaborative partner in global product development, supply chain, manufacturing and aftermarket services. We've been partnering with companies like yours for more than 35 years.

We truly take the time to understand your market needs. Most importantly, Plexus is a trusted firm. With ISO 13485 certified and FDA registered global facilities, we deliver a wide range of quality finished Class II and Class III medical products for your industry.

Healthcare Solutions

- + Diagnostic imaging
- + Hospital and in-home monitoring
- + Pharmacy automation
- + Medication dispensing systems
- + Therapeutic equipment
- + Electronic surgical equipment

Life Science Solutions

- + Laboratory automation
- + Laboratory diagnostics
- + Genomics
- + DNA purification
- + Immunoassay
- + Clinical chemistry

Regulatory Expertise and Compliance

We provide the critical regulatory compliance required to ensure product safety and reliability, including support documentation for FDA Premarket Approval (PMA) and Premarket Notification (510(k)), as well as notified body submissions for CE Mark compliance.
