<p align="center"><u>Q-CODE Q44J QUALITY REQUIREMENTS</u> DESIGN/PMI/FAT/HANDLING</p>

With acceptance of/or receipt of product against this order the supplier agrees to allow Plexus, their customer and regulatory authorities the right of access to their facility and all applicable records. The following are the quality requirements for product purchased under Q-code Q44J. Unless a written waiver is received from Plexus, the supplier agrees to abide by the quality requirements listed below. Plexus will only give a written wavier after notifying and obtaining approval from the customer authorized person and Certified Body.

Pre-1st Shipment (Part Number or Revision change) - Before a product will be released for production the supplier will be required to meet the documentation and quality requirements as follows:

- A. First Article Inspection Report - All dimensions must be within print tolerance. Any dimension which is not within print specification must be approved by Plexus in writing before product can be shipped.
- B. Design
 - General Assembly Drawing
 - 3D Solid model (.stp format)
- C. Manufacturing Record/Data Book
- D. Manufacturing Record/Data Book Index
- E. Quality Control/Inspection and Test Plan
- F. Supplier Master Document List (SMDL)
- G. EN10204 Type 3.1 Material Inspection Certification must detail the following:
 - Name of Material Supplier
 - Material Suppliers part number
 - Details of the Test/Inspection Results
 - The Lot # and Date Code or Serial numbers for each shipment
 - A statement of Compliance to specification
 - Signed and dated by an authorised inspection representative independent of the manufacturing department.
- H. Non-Destructive Testing/Examination
 - Positive Material Identification (PMI) Test Report - Metallic Parts Only
 - Non Metallic/Polymer Seal Batch Test certificate
- I. Test and Calibration
 - FAT Test results
 - FAT Specification/Procedure

- Qualification Test Certificate/Report/Results

J. Handling

- Photograph
- Handling/Lifting/Storage/Packing/Shipping/Preservation Procedure
- Weight Certificate

K. Certificate of Conformance (COC) must also include the following:

- Name of Manufacturer/OEM/OCM
- Manufacturer's/OEM's/OCM's part number when required
- Plexus part number
- Revision or EC level if applicable
- Quantity
- Purchase order number
- Lot # and Date Code ₁ or Serial numbers for each shipment
- A statement of Compliance specifying compliance to the following:
 - The drawings and specifications provided by Plexus
 - The requirements of the specific PO
- Signed and dated by an authorised representative

₁ The minimum-required date code format shall identify the 2-digit workweek, 2-digit year (WWYY). If the component marking contains a lot and date code, then those markings must be traceable to the COC.

All cartons, required documentation, labels, packaging and packing slips must have part number, EC level or revision, quantity and P.O. number listed on them.

Subsequent Shipments-The documentation and quality requirements for all subsequent shipments will be as follows:

- A. Manufacturing Record/Data Book
- B. Manufacturing Record/Data Book Index
- C. EN10204 Type 3.1 Material Inspection Certification must detail the following:
 - Name of Material Supplier
 - Material Suppliers part number
 - Details of the Test/Inspection Results
 - The Lot # and Date Code or Serial numbers for each shipment
 - A statement of Compliance to specification
 - Signed and dated by an authorised inspection representative independent of the manufacturing department.
- D. Non-Destructive Testing/Examination
 - Positive Material Identification (PMI) Test Report - Metallic Parts Only
 - Non Metallic/Polymer Seal Batch Test certificate
- E. Test and Calibration
 - FAT Test results
 - Qualification Test Certificate/Report/Results

F. Certificate of Conformance (COC) must also include the following:

- Name of Manufacturer/OEM/OCM
- Manufacturer's/OEM's/OCM's part number when required
- Plexus part number
- Revision or EC level if applicable
- Quantity
- Purchase order number
- Lot # and Date Code ₁ or Serial numbers for each shipment
- A statement of Compliance specifying compliance to the following:
 - The drawings and specifications provided by Plexus
 - The requirements of the specific PO
- Signed and dated by an authorised representative

₁ The minimum-required date code format shall identify the 2-digit workweek, 2-digit year (WWYY). If the component marking contains a lot and date code, then those markings must be traceable to the COC.

All cartons, required documentation, labels, packaging and packing slips must have part number, EC level or revision, quantity and P.O. number listed on them.

Material received without the completion and proper execution of the Quality Requirement allows Plexus the right to return the material as defective. For material that has been previously provided to Plexus, the requirements under subsequent shipments will be followed.

Product change notification

Upon acceptance of conforming product, documentation, and the requirements of this Q-code, the supplier's manufacturing process shall be considered "qualified". All changes require written approval from Plexus prior to implementation. Product or Process change notification requests (PCNs) shall be submitted to pcns@plexus.com.
