Plexus Provides Rapid Ventilator Production In Support of the Battle Against COVID-19

KELSO, SCOTLAND – April 2, 2020 - Plexus (NASDAQ: PLXS) announced today it is participating in the United Kingdom government's efforts to expedite the manufacturing of ventilators in aid of the fight against COVID-19. Plexus will be manufacturing and delivering ventilators to the National Health Service (NHS) to assist in the treatment of COVID-19 patients. These ventilators will be produced in Plexus' facility located in Kelso, Scotland.

Ronnie Darroch, Executive Vice President and Regional President - EMEA, commented, "We are proud to be a part of this opportunity to produce a substantial number of ventilators that will be deployed in hospitals across the United Kingdom. I am humbled by the incredible work ethic of the Plexus teams in Kelso and Livingston, Scotland, and around the globe, who are doing their utmost to make the rapid production of these critical products possible. I also would like to thank the courageous medical professionals of the NHS who we are honoured to serve."

Todd Kelsey, President and CEO, commented, "Plexus is uniquely qualified to support the design, development and production of critical medical equipment that assists healthcare workers in the fight against COVID-19. In addition to producing ventilators, Plexus also manufactures several other essential medical devices that further the fight against COVID-19 in its facilities around the world. These devices include: infusion pumps, diagnostic equipment, patient monitors, bronchoscopes and laryngoscopes, CT scanners, MRI machines, ultrasounds and mobile x-ray units."

Mr. Kelsey concluded, "I applaud our team members, particularly those in our manufacturing sites, who every day are demonstrating their courage and unwavering support of our customers and the brave medical professionals around the globe. Our teams' contributions throughout Plexus provide us the opportunity to directly and indirectly support the fight against COVID-19, while also contributing to the supply of those products that are essential and in dire need."

Safe Harbor and Fair Disclosure Statement

The statements contained in this press release that are guidance or which are not historical facts (such as statements in the future tense and statements including believe, expect, intend, plan, anticipate, goal, target and similar terms and concepts), including all discussions of periods which are not yet completed, are forward-looking statements that involve risks and uncertainties. These risks and uncertainties include the evolving effect, which may intensify, of COVID-19 on our employees, customers, suppliers, and logistics providers, including the impact of governmental actions being taken to curtail the spread of the virus. Other risks and uncertainties include, but are not limited to: the risk of customer delays, changes, cancellations or forecast inaccuracies in both ongoing and new programs; the lack of visibility of future orders, particularly in view of changing economic conditions; the economic performance of the industries, sectors and customers we serve; the effects of shortages and delays in obtaining components as a result of economic cycles, natural disasters or otherwise; the effects of tariffs, trade disputes, trade agreements and other trade protection measures; the effects of the volume of revenue from certain sectors or programs on our margins in particular periods; our ability to secure new customers, maintain our current customer base and deliver product on a timely basis; the risks of concentration of work for certain customers; the particular risks relative to new or recent customers, programs or services, which risks include customer and other delays, start-up costs, potential inability to execute, the establishment of appropriate terms of agreements, and the lack of a track record of order volume and timing; the effects of start-up costs of new programs and facilities or the costs associated with the closure or consolidation of facilities; possible unexpected costs and operating disruption in transitioning programs, including transitions between Company facilities; the risk that new program wins and/or customer demand may not result in the expected revenue or profitability; the fact that customer orders may not lead to long-term relationships; our ability to manage successfully and execute a complex business model characterized by high product mix and demanding quality, regulatory, and other requirements; the risks associated with excess and obsolete inventory, including the risk that inventory purchased on behalf of our customers may not be consumed or otherwise paid for by the customer, resulting in an inventory write-off; risks related to information technology systems and data security; the ability to realize anticipated savings from restructuring or similar actions, as well as the adequacy of related charges as compared to actual expenses; increasing regulatory and compliance requirements; the effects of U.S. Tax Reform and of related foreign jurisdiction tax developments; current or potential future barriers to the repatriation of funds that are currently held outside of the United States as a result of actions taken by other countries or otherwise; the potential effects of jurisdictional results on our taxes, tax rates, and our ability to use deferred tax assets and net operating losses; the weakness of areas of the global economy; the effect of changes in the pricing and margins of products; raw materials and component cost fluctuations; the potential effect of fluctuations in the value of the currencies in which we transact business; the effects of changes in economic conditions, political conditions and tax matters in the United States and in the other countries in which we do business (including as a result of the United Kingdom's pending exit from the European Union); the potential effect of other world or local events or other events outside our control (such as changes in energy prices, terrorism and weather events); the impact of increased competition; an inability to successfully manage human capital; changes in financial accounting standards; and other risks detailed herein and in our other Securities and Exchange Commission filings, particularly in Risk Factors in our fiscal 2019 Form 10-K.
