

Plexus Announces \$50 Million Share Repurchase Program

NEENAH, WI – August 20, 2019 - Plexus (NASDAQ: PLXS) announced today that its Board of Directors has approved a new share repurchase program under which the Company is authorized to repurchase up to \$50 million of its common stock beginning upon expiration of the Company's previous share repurchase program. This most recent authorization is expected to extend through fiscal 2020.

Patrick Jermain, Executive Vice President and Chief Financial Officer, commented, "This repurchase program reflects our commitment to maximizing total shareholder return and our disciplined focus on delivering superior financial performance. We believe that repurchasing Plexus stock, at current market prices, is an attractive use of our capital resources and provides an opportunity to enhance shareholder value."

The authorized repurchases represent approximately 3% of current market capitalization. Plexus does not have a specific schedule or commitment for the repurchase of the shares; however, subject to market factors, it expects to complete the authorized repurchases on a relatively consistent basis through fiscal 2020.

Safe Harbor and Fair Disclosure Statement

The statements contained in this press release that are guidance or which are not historical facts (such as statements in the future tense and statements including believe, expect, intend, plan, anticipate, goal, target and similar terms and concepts), including all discussions of periods which are not yet completed, are forward-looking statements that involve risks and uncertainties. These risks and uncertainties include, but are not limited to: the risk of customer delays, changes, cancellations or forecast inaccuracies in both ongoing and new programs; the lack of visibility of future orders, particularly in view of changing economic conditions; the economic performance of the industries, sectors and customers we serve; the effects of shortages and delays in obtaining

components as a result of economic cycles, natural disasters or otherwise; the effects of tariffs and other trade protection measures; the effects of the volume of revenue from certain sectors or programs on our margins in particular periods; our ability to secure new customers, maintain our current customer base and deliver product on a timely basis; the particular risks relative to new or recent customers, programs or services, which risks include customer and other delays, start-up costs, potential inability to execute, the establishment of appropriate terms of agreements, and the lack of a track record of order volume and timing; the risks of concentration of work for certain customers; the effects of start-up costs of new programs and facilities; possible unexpected costs and operating disruption in transitioning programs, including transitions between Company facilities; the risk that new program wins and/or customer demand may not result in the expected revenue or profitability; the fact that customer orders may not lead to long-term relationships; our ability to manage successfully and execute a complex business model characterized by high product mix, low volumes and demanding quality, regulatory, and other requirements; the ability to realize anticipated savings from restructuring or similar actions, as well as the adequacy of related charges as compared to actual expenses; increasing regulatory and compliance requirements; risks related to information technology systems and data security; the effects of U.S. Tax Reform and of related foreign jurisdiction tax developments; current or potential future barriers to the repatriation of funds that are currently held outside of the United States as a result of actions taken by other countries or otherwise; the potential effects of jurisdictional results on our taxes, tax rates, and our ability to use deferred tax assets and net operating losses; the risks associated with excess and obsolete inventory, including the risk that inventory purchased on behalf of our customers may not be consumed or otherwise paid for by the customer, resulting in an inventory write-off; the weakness of areas of the global economy; the effect of changes in the pricing and margins of products; raw materials and component cost fluctuations; the potential effect of fluctuations in the value of the currencies in which we transact business; the effects of changes in economic conditions, political conditions, and tax matters in the United States and in the other countries in which we do business (including as a result of the United Kingdom's pending exit from the European Union); the potential effect of other world or local events or other events outside our control (such as changes in energy prices, terrorism and weather events); the impact of increased competition; changes in financial accounting standards; and other risks detailed herein and in our other Securities and Exchange Commission filings (particularly in "Risk Factors" in our fiscal 2018 Form 10-K).
